

4. How to Record a Follow-up ANC visit

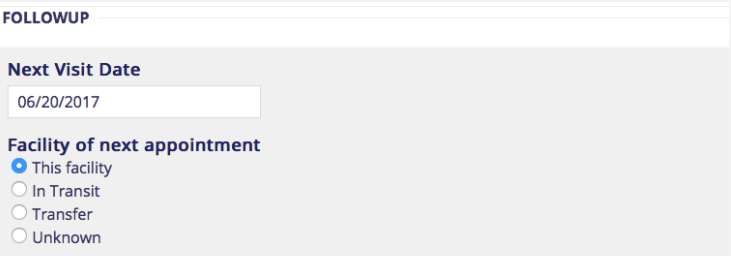

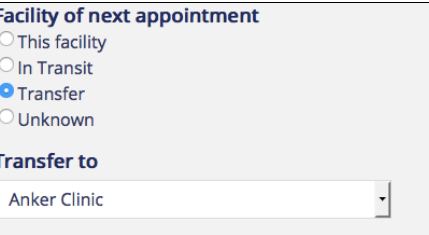

Objective:	Ensure that ALL MCH clients attending ANC clinic have an ANC follow-up visit record in PTracker	
Tasks:	a. Search for a registered client before a follow-up ANC visit is recorded b. Create a follow-up ANC visit record	
When:	When a client arrives for an ANC follow-up visit at the ANC Clinic	
Who:	ANC nurses staff who receive clients. These users should have logins and data entry roles to create visits.	
Required Materials:	Username, password, hardware with a Firefox web browser or ODK collect application to access the PTracker remotely installed, Antenatal Clinic/Care Register with client's follow-up visit details (HIV testing and ART initiation details, Adherence to ART, Viral load test and test results, Next visit date)	
STEP	ACTION	
1.	IF	THEN
	a. New unregistered (Not registered) client on this visit.	See steps in Section 2. How to Register or Create a New Client Record in PTracker Note: Only complete a new client registration <i>after</i> checking and searching for client in PTracker
	b. Client is already in PTracker from previous registration	Go to step 2
2.	Navigate to the Search Client screen to confirm that the client exists in PTracker. by clicking on the Find Client Record button.	
3.	From the Find Client Record page, enter the client's name into the search box. <i>For example, a client arriving at reception (or name recorded in the register) gives his name as First Middle Fam. Entering "Win" in the Search box returns a list of one records for clients whose names begin with "win."</i>	
4.	One or more PTracker client record(s) matches the client	Double-check the client's age, sex, and/or PTracker Identifier to be sure you have the correct record. Click on the client highlighted row by moving the mouse over it to open the client detail page in step 5 .

STEP	ACTION	
5.	<p>The client details page includes Demographic Details, Contact Info, Recent Visits, Family (Baby), and General Actions on the right. See the image below:</p> <div></div>	
6.	<p>On the General Actions box on the right, select and click on the Antenatal Form, to fill in details of the follow-up ANC visit form.</p>	<div></div>
7.	<p>Once you click the Antenatal Form, this screen containing the ANC VISIT summary information will appear. We can gather Summary Information about the client entered in from previous ANC visits. For example,</p> <ul style="list-style-type: none">Client has had 3 previous ANC visitsClient last HIV test was administered on 19th June 2017Client EDD is 17th September 2017Client’s last ANC Clinic was Aminuis Clinic <div></div>	

STEP	IF	ACTION
8	a. Client HIV status is New Positive (that is client newly tested positive for HIV during a follow-up visit) and has no first ANC record in PTracker either because of <ul style="list-style-type: none"> - Client attended a previous ANC visit at another facility without PTracker, OR <ul style="list-style-type: none"> - Client is a 'visitor' at the facility and has received previous ANC care elsewhere. 	Indicate that this is not the first ANC visit and continue to step 9 .
	b. Client is New Positive (that is client newly tested positive during a follow-up visit) and has a first ANC record in PTracker	Indicate that this is not the first ANC visit and continue to step 9 .
	c. Client is New Positive (that is client newly tested positive during a follow-up visit) and this is their first ANC visit.	Indicate that this is the first ANC record and follow steps in Section 3 How to Record a First ANC Visit in PTracker
9	HIV Testing and ART Initiation	
	a. HIV status is New Positive OR b. Known Positive (KP) and ART status is Unknown	Select ART initiation response
	Currently taking ARV <div> ART initiation <ul style="list-style-type: none"> <input checked="" type="radio"/> Already on ART before current pregnancy <input type="radio"/> Started on ART in ANC current pregnancy <input type="radio"/> Refused ART <input type="radio"/> Not started due to stockout or ART <input type="radio"/> Unknown </div>	Enter ART unique number and ART start date and Viral Load Test <div> ART Unique Number <input type="text" value="1234517001"/> </div> <div> ART start date <input type="text" value="06/08/2017"/> </div> <div> Viral Load test done? <ul style="list-style-type: none"> <input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> Unknown </div>
	Started ART during this visit <div> ART initiation <ul style="list-style-type: none"> <input type="radio"/> Already on ART before current pregnancy <input checked="" type="radio"/> Started on ART in ANC current pregnancy <input type="radio"/> Refused ART <input type="radio"/> Not started due to stockout or ART <input type="radio"/> Unknown </div>	
	 Note: ART Unique number may not be available at the time of data entry for newly initiated clients. If available, please provide the ART Unique number and ART start/initiation date.	
	Viral load test done is "YES" <div> Viral Load test done? <ul style="list-style-type: none"> <input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> Unknown </div>	Enter Viral Load test date and Viral load result <div> Viral load test date <input type="text"/> </div> <div> Viral load results <ul style="list-style-type: none"> <input checked="" type="radio"/> Target Detected <input type="radio"/> Not Detected <input type="radio"/> Sample Rejected <input type="radio"/> Results Pending </div>

STEP	IF		ACTION
9b.	Viral load Target detected Viral load results <input checked="" type="radio"/> Target Detected <input type="radio"/> Not Detected <input type="radio"/> Sample Rejected <input type="radio"/> Results Pending		Enter the viral load copies <div> Viral load <input type="text"/> copies/ml </div>
	Viral load Not detected or Sample Rejected Viral load results <input type="radio"/> Target Detected <input type="radio"/> Not Detected <input checked="" type="radio"/> Sample Rejected <input type="radio"/> Results Pending		Proceed to Step 10
	Viral load Results Pending Viral load results <input type="radio"/> Target Detected <input type="radio"/> Not Detected <input type="radio"/> Sample Rejected <input checked="" type="radio"/> Results Pending		Proceed to Step 10
	Viral load test done is "NO" Viral Load test done? <input type="radio"/> Yes <input checked="" type="radio"/> No <input type="radio"/> Unknown		Proceed to Step 10
	Client Refused ART		Enter Reason for refusing ART Initiation in the text field <div> ART initiation <input type="radio"/> Started ART during this visit <input checked="" type="radio"/> Refused ART <input type="radio"/> Not started due to stockout <input type="radio"/> Unknown Reason for refusing ART initiation <input type="text"/> </div>
9c.	Indicate if Viral load test was done and Viral Load test date , Viral load results and Viral Load Copies/mL		
	HIV status is Known Positive and ART status is Previously recorded	Viral Load test done? <input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> Unknown	Viral load test date <input type="text"/> Viral load results <input checked="" type="radio"/> Target Detected <input type="radio"/> Not Detected <input type="radio"/> Sample Rejected <input type="radio"/> Results Pending
		Viral load <input type="text"/> copies/ml	

STEP	IF	ACTION
9d.	HIV status is Negative OR Unknown	<p>STOP!!!!!! </p> <p>Do NOT Record an <i>ANC Follow-up Visit</i> for Clients with HIV Negative Status or clients with Unknown HIV Status</p>
10.	Under Follow-up Section, enter Next Visit Date and Facility of next appointment	
11.	If Client is transferring to another Clinic select Transfer and Select the facility of transfer for next appointment.	
12.	This task is complete when, after clicking on Enter Form .	
13.	The client summary page appears and displays the recorded ANC visit and ANC followup visit under Recent visits . The example shown on the right shows two visits for Winfred K Amani on 18th June 2017 and a follow-up visit on 15th June 2017	
14.	 Note: Clients with no previous ANC visit recorded will only have follow-up visits record reflected.
