

7. How to record a Post Natal Visit for an HIV exposed Infant in PTracker

| | | | |
|---|---|--|---|
| Objective: | Ensure that details for an HIV exposed infant visit at post natal care and follow-up (mother-baby follow-up visits) are recorded in PTracker | | |
| Tasks: | Enter client’s PNC details, either as linked to the mother who is already registered or Create a new client record then enter details as recorded in register | | |
| When: | When exposed infant comes for PNC visits and ensuing follow up visits after delivery (maternity) from 6 days up to when infant is between the ages of 18-24 months old. | | |
| Who: | PMTCT staff. These users should have logins. | | |
| Required Materials: | Username, password, hardware with an Firefox web browser or ODK collect application to access the PTracker remotely installed Mother Baby Follow up Care Register with exposed infant details for PNC, HIV testing and ART initiation details, Nevaraprime prophylaxis, demographic information, Next visit date, PTracker ID and ART Unique number (if infant is positive). | | |
| STEP | ACTION | | |
| 1. | If | Then | |
| | a. Newly unregistered HIV exposed infant on this visit. | See steps in Section 2. How to Register or Create a New Client Record in PTracker Note: Only complete a new client registration <i>after</i> checking and searching for client in Ptracker | |
| | b. Infant is already in PTracker from previous registration at L&D | Go to step 2 | |
| 2. | Navigate to the Search Client screen to confirm that the Infant exists in PTracker by clicking on the Find Client Record button. | |  |
| 3. | From the Find Client Record page, enter the client’s name (Mother’s name) into the search box. <i>For example, a client arriving at reception (or name recorded in the register) gives his name as First Middle Fam. Entering “Win” in the Search box returns a list of one records for clients whose names begin with “win.”</i> | | |
| |  | | |
|  | Important: Search by the mother’s name or by the infant’s name if known at the time of the visit. | | |
| 4. | If one or more PTracker client record(s) matches the client. | Double-check the client’s age, sex, and/or PTracker ID to be sure you have the correct record. Click on the client highlighted row by moving the mouse over it to open the client detail page in step 6 . | |
| |  | | |
| 5. | If client or infant has an existing record | Proceed with step 7 | |
