

### 3. How to Record a First ANC (ANC1) visit in PTracker

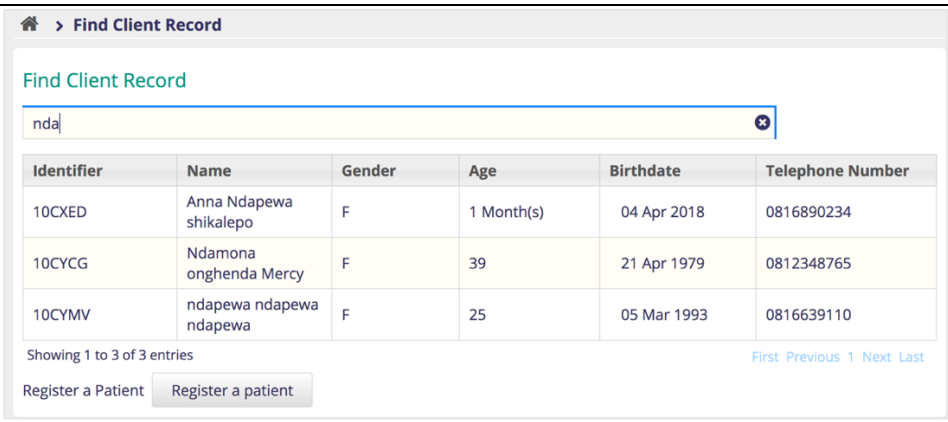

<b>Objective:</b>	Ensure that ALL MCH clients attending a First ANC have an ANC1 record in PTracker
<b>Tasks:</b>	a. Search for a registered client before an First ANC visit is recorded b. Create a new (First) ANC visit record
<b>When:</b>	When a client arrives for an ANC visit, has been newly registered or previously enrolled in PTracker
<b>Who:</b>	ANC nurses staff who receive clients. These users should have logins and data entry roles to create visits.
<b>Required Materials:</b>	Username, password, hardware with a Firefox web browser or ODK collect application to access the PTracker remotely installed, <b>Antenatal Clinic/Care Register</b> with client details for ANC visits (Gravida, Para, Last Normal Menstrual period (LNMP), HIV testing and ART initiation details, Next visit date).

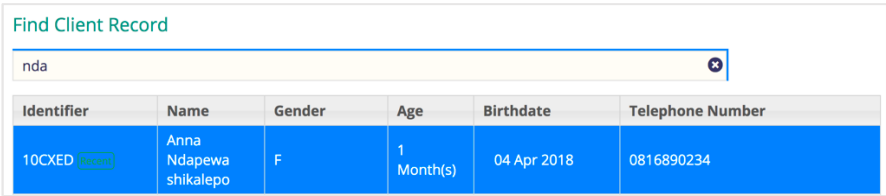

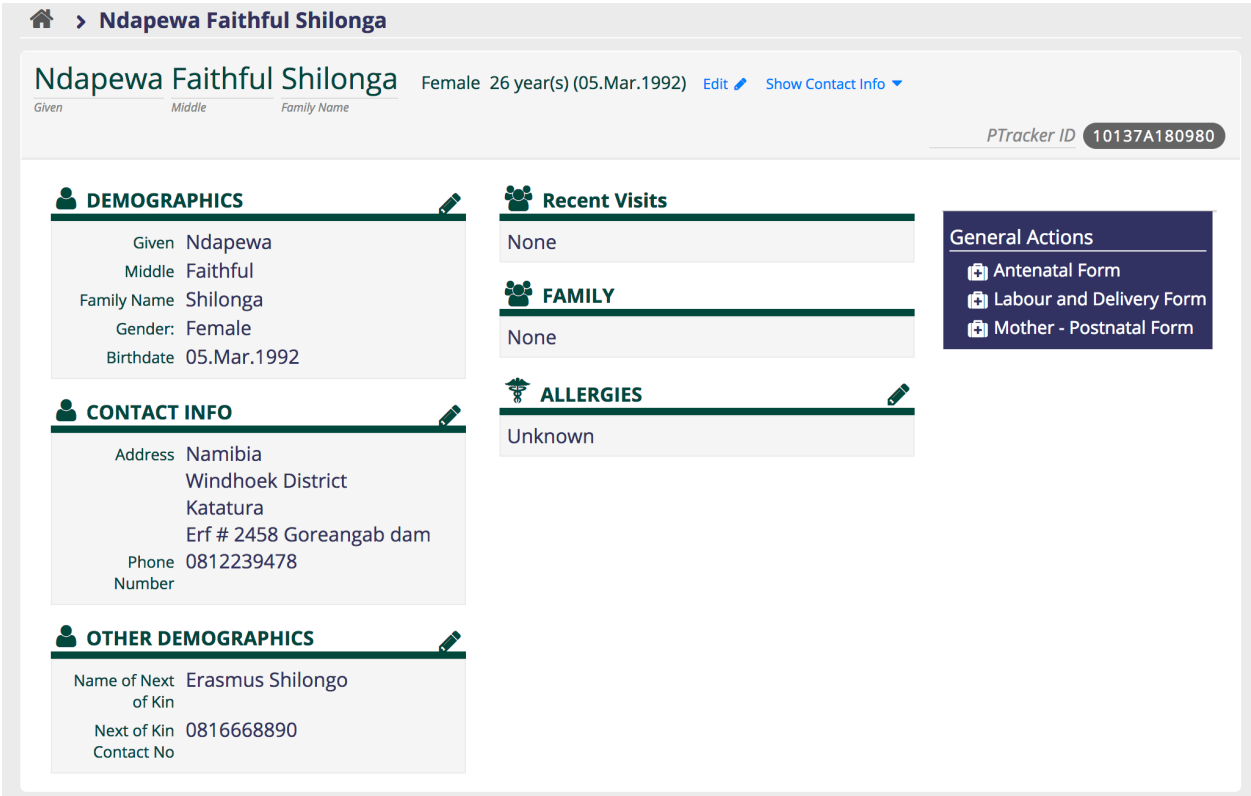

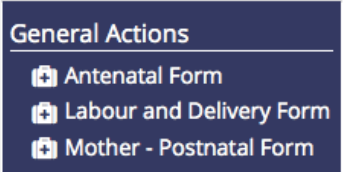

STEP	ACTION	
1.	IF	THEN
	a. Newly unregistered client on this visit.	See steps in Section 2. <b>How to Register or Create a New Client Record in PTracker</b>
	b. Client is already in PTracker from a previous registration or encounter	<b>Go to step 2</b>

#### Avoid creating duplicate client records!

Before creating a new client record, **FIRST** confirm that the client does not have an existing record in PTracker by searching for the client's name or previously used PTracker ID

2.	Navigate to the <b>Search Client</b> screen by clicking on the <b>Find Client Record</b> button.	
	From the <b>Find Client Record</b> page, enter the client's name or Ptracker ID into the search box.	
	<i>For example, if a new client's name recorded in the register as or client gives her name as <b>Ndapewa Shilonga</b>. <b>First</b> search for the clients name by a part of the provided name. Entering "Nda" in the Search box returns a list of all records for clients whose names contain with "Nda".</i>	

3.	
----	--

STEP	ACTION	
4.	One or more PTracker client record(s) matches the client.	Double-check the client's age, demographic information, and/or PTracker Identifier to be sure you have the correct record. You can click on the client highlighted row by moving the mouse over it to see a client's full record in <b>step 5</b> .
		
5.	The client details page includes <b>Demographic Details, Contact Info, Recent Visits, Family (Infant), and General Actions</b> on the right. See the image below:	
		
6.	On the <b>General Actions</b> box on the right, select and click on the <b>Antenatal Form</b> , to fill in details of the <b>first ANC visit form</b> .	

STEP	ACTION	
11.	Go to <b>Details of Pregnancy</b> Section then enter the following details as recorded in the ANC register. <ol style="list-style-type: none"> <li><b>Gravida</b> and <b>Para</b> details</li> <li><b>Date of Last Normal Menstrual Period</b></li> <li><b>Expected Date of Delivery (EDD)</b></li> </ol>	
	<div> <div>DETAILS OF PREGNANCY</div> <div> <p>How many times have you been pregnant, including current pregnancy (Gravida)? *</p> <input type="text"/> <p><input type="checkbox"/> Gravida missing</p> <p>How many babies have you delivered before (Para)? *</p> <input type="text"/> <p><input type="checkbox"/> Para missing</p> <p>Date of last normal menstrual period (LNMP) *</p> <input type="text"/> <p><input type="checkbox"/> Date of last normal menstrual period missing</p> <p>Estimated date of delivery (EDD) *</p> <input type="text"/> <p><input type="checkbox"/> Estimated date of delivery missing</p> </div> </div>	
	<p><b>NOTE:</b> . A user response is required for <b>EVERY</b> field in PTracker. If any of the fields are left blank or without a response (eg. LNMP), the user will be unable to submit the encounter in PTracker as shown in the example below. Therefore in situations where the data field is blank in the register, users are advised to choose a missing response during record entry into PTracker.</p>	<div> <p>Date of last normal menstrual period (LNMP) *</p> <input type="text"/> <p>LMP must be provided</p> <p><input type="checkbox"/> Date of last normal menstrual period missing</p> </div>
12.	<b>HIV Testing and ART Initiation</b>	
	<b>IF</b>	<b>ACTION</b>
12a.	<b>HIV Test Status</b> is <b>Tested for HIV during this visit</b> <div> <div>HIV TESTING AND ART INITIATION</div> <div> <p>HIV test status</p> <p><input checked="" type="radio"/> Tested for HIV during this visit</p> <p><input type="radio"/> Previously known positive</p> <p><input type="radio"/> Not tested for HIV during this visit</p> <p><input type="radio"/> Missing</p> </div> </div>	Indicate the <b>HIV test result</b>
	HIV Test result is <b>Negative</b>	Proceed to <b>Step 13</b>
	HIV Test result is <b>Positive</b>	Proceed to the <b>Step 12.c</b> to enter <b>details of the ART initiation</b>
12b.	<b>HIV test Status</b> is <b>Previously Known Positive (KP)</b>	Proceed to the <b>Step 12.c</b> to enter <b>details of the ART initiation</b>

STEP	ACTION	
	If	Then
12c.	<b>NOTE:</b> ART Unique number may not be available at the time of data entry for newly initiated clients. If unavailable, please select the missing option for ART start/initiation date.	
	<b>Client Already on ART before current Pregnancy</b> <div> <b>ART initiation</b> <ul style="list-style-type: none"> <li><input checked="" type="radio"/> Already on ART before current pregnancy</li> <li><input type="radio"/> Started on ART in ANC current pregnancy</li> <li><input type="radio"/> Refused ART</li> <li><input type="radio"/> Not started due to stockout of ART</li> <li><input type="radio"/> Missing</li> </ul> </div>	<div> <b>ART Unique Number</b> <input type="text"/> <input type="checkbox"/> ART Unique Number missing </div> <div> <b>ART start date</b> <input type="text"/> <input type="checkbox"/> ART start date missing </div>
	<b>Client Started on ART before current Pregnancy</b> <div> <b>ART initiation</b> <ul style="list-style-type: none"> <li><input type="radio"/> Already on ART before current pregnancy</li> <li><input checked="" type="radio"/> Started on ART in ANC current pregnancy</li> <li><input type="radio"/> Refused ART</li> <li><input type="radio"/> Not started due to stockout of ART</li> <li><input type="radio"/> Missing</li> </ul> </div>	
	<b>Client Refused ART</b> In a few words Enter <b>Reason for refusing ART</b> in the text field	<div> <b>Reason for refusing ART initiation</b> <input type="text"/> <input type="checkbox"/> Reason for refusing ART initiation missing </div>
	<b>Client not started due to Stockout of ART</b>	Proceed to the <b>Step 12.d</b> to enter <b>details of Viral Load Test</b>
12d.	<b>Viral Load</b>	
	Viral load test done is <b>"YES"</b> <div> <b>Viral Load test done?</b> <ul style="list-style-type: none"> <li><input checked="" type="radio"/> Yes</li> <li><input type="radio"/> No</li> <li><input type="radio"/> Missing</li> </ul> </div>	Enter <b>Viral load test date</b> and <b>Viral load results</b> <div> <b>Viral load test date</b> <input type="text"/> <input type="checkbox"/> Viral load test date missing </div> <div> <b>Viral load results</b> <ul style="list-style-type: none"> <li><input type="radio"/> Target Detected</li> <li><input type="radio"/> Not Detected</li> <li><input type="radio"/> Sample Rejected</li> <li><input type="radio"/> Results Pending</li> <li><input type="radio"/> Missing</li> </ul> </div>
	Viral load <b>Target detected</b> <div> <b>Viral load results</b> <ul style="list-style-type: none"> <li><input checked="" type="radio"/> Target Detected</li> <li><input type="radio"/> Not Detected</li> <li><input type="radio"/> Sample Rejected</li> <li><input type="radio"/> Results Pending</li> <li><input type="radio"/> Missing</li> </ul> </div>	Enter the Viral load copies <div> <b>Viral load (copies/ml)</b> <input type="text"/> <input type="checkbox"/> Viral load copies missing </div>
	Viral load <b>Not detected or Sample Rejected</b> <div> <b>Viral load results</b> <ul style="list-style-type: none"> <li><input type="radio"/> Target Detected</li> <li><input checked="" type="radio"/> Not Detected</li> <li><input type="radio"/> Sample Rejected</li> <li><input type="radio"/> Results Pending</li> <li><input type="radio"/> Missing</li> </ul> </div>	<b>Proceed to Step 13</b>

STEP	ACTION	
12d.	If	Then
	Viral load <b>Results Pending</b>  <div> <b>Viral load results</b>  <input type="radio"/> Target Detected  <input type="radio"/> Not Detected  <input type="radio"/> Sample Rejected  <input checked="" type="radio"/> Results Pending  <input type="radio"/> Missing         </div>	Proceed to <b>Step 13 NOTE:</b>  <b>Note:</b> This option should only be chosen if a Viral Load Test has been ordered but the results have not been returned by NIP to the facility
	Viral load test done is <b>"NO"</b>  <div> <b>Viral Load test done?</b>  <input type="radio"/> Yes  <input checked="" type="radio"/> No  <input type="radio"/> Unknown         </div>	
12e.	<b>HIV test Status</b> is Not tested for HIV during this visit / Missing  <div> <b>HIV TESTING AND ART INITIATION</b>   <b>HIV test status</b>  <input type="radio"/> Tested for HIV during this visit  <input type="radio"/> Previously known positive  <input checked="" type="radio"/> Not tested for HIV during this visit  <input type="radio"/> Missing         </div>	Proceed to <b>Step 13</b>
13.	Under <b>Follow-up</b> Section, enter <b>Next Visit Date</b> and details for the <b>Facility of next appointment</b>	<div> <b>FOLLOWUP</b>   <b>Next Visit Date</b>  <input type="text" value="08/08/2018"/>  <input type="checkbox"/> Next visit date missing   <b>Facility of next appointment</b>  <input type="radio"/> This facility  <input type="radio"/> In Transit  <input checked="" type="radio"/> Transfer  <input type="radio"/> Missing         </div>
	If Client is transferring to another Clinic select <b>Transfer</b> and Select the facility of transfer for next appointment.	
14.	This task is complete when, after clicking on <b>Enter Form</b> .	<b>Enter Form</b>
15.	The client summary page appears (see next page) and displays the newly <b>recorded ANC visit</b> that occurred on <b>04 April 2018</b> under the <b>Recent visits</b> section.  <b>Note:</b> To review the details of the recorded ANC visit or any other recorded encounter in PTracker, click on the <b>blue highlighted</b> visit to reveal details of the recorded visit.	
	To edit the details of the most recently submitted encounter, see section on <b>HOW to Edit a previously submitted record in PTracker</b> .
