

6. How to Record a Mother's Post Natal Care Visit PTracker

Objective:		To ensure that the client's (Mother) post natal care (PNC) and follow up visit details are recorded in PTracker
Tasks:		a. Enter client's (Mother) PNC visit details b. Create a new client record – if not previously registered- then enter details as recorded in Mother-Baby Follow Up Care register
When:		When a client (Mother) comes for PNC visits and ensuing follow up visits after delivery (maternity) from 6 days up to when infant is between the ages of 18-24 months old.
Who:		PMTCT staff. These users should have logins and data entry roles to create visits.
Required Materials:		Username, password, hardware with an Firefox web browser or ODK collect application to access the PTracker remotely installed Mother Baby Follow up Care Register with client details for PNC (Breastfeeding status) HIV testing and ART initiation details, Next visit date Nevaprine prophylaxis, demographic information, PTracker ID)
STEP	ACTION	
1.	IF	THEN
	a. Newly unregistered client on this visit.	See steps in Section 2. How to Register or Create a New Client Record in PTracker Note: Only complete a new client registration <i>after</i> checking and searching for client in PTracker
	b. Client is already in PTracker from previous registration	Go to step 2
2.	Navigate to the Search Client screen to confirm that the client exists in PTracker. by clicking on the Find Client Record button.	
3.	<p>From the Find Client Record page, enter the client's name into the search box.</p> <p><i>For example, a client arriving at reception (or name recorded in the register) gives his name as First Middle Fam. Entering "Win" in the Search box returns a list of one records for clients whose names begin with "win."</i></p>	
4.	One or more PTracker client record(s) matches the client	<p>Double-check the client's age, sex, and/or PTracker Identifier to be sure you have the correct record. Click on the client highlighted row by moving the mouse over it to open the client detail page in step 6.</p>
5.	Client does have an existing record	Proceed with step 6

STEP	ACTION	
9.	HIV TESTING AND ART INITIATION	
	If	Action
	<p>a. HIV status is New Positive</p> <p>OR</p> <p>b. Known Positive (KP) and ART status is Unknown</p>	Select ART initiation response
	<p>Currently taking ARV</p> <div> ART initiation <ul style="list-style-type: none"> <input checked="" type="radio"/> Already on ART before current pregnancy <input type="radio"/> Started on ART in ANC current pregnancy <input type="radio"/> Refused ART <input type="radio"/> Not started due to stockout or ART <input type="radio"/> Unknown </div>	Enter ART unique number and ART start date and Viral Load Test <div> ART Unique Number <input type="text" value="1234517001"/> </div>
	<p>Started ART during this visit</p> <div> ART initiation <ul style="list-style-type: none"> <input type="radio"/> Already on ART before current pregnancy <input checked="" type="radio"/> Started on ART in ANC current pregnancy <input type="radio"/> Refused ART <input type="radio"/> Not started due to stockout or ART <input type="radio"/> Unknown </div>	<div> ART start date <input type="text" value="06/08/2017"/> </div> <div> Has the patient had a recent viral load test? <ul style="list-style-type: none"> <input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> Unknown </div>
	 Note: ART Unique number may not be available at the time of data entry for newly initiated clients. If available, please provide the ART Unique number and ART start/initiation date.	
	<p>Recent Viral load test done is "YES"</p> <div> Has the patient had a recent viral load test? <ul style="list-style-type: none"> <input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> Unknown </div>	Enter Viral Load test date and Viral load results <div> Viral load test date <input type="text"/> </div> <div> Viral load results <ul style="list-style-type: none"> <input checked="" type="radio"/> Target Detected <input type="radio"/> Not Detected <input type="radio"/> Sample Rejected <input type="radio"/> Results Pending </div>
	<p>Viral load Target detected</p> <div> Viral load results <ul style="list-style-type: none"> <input checked="" type="radio"/> Target Detected <input type="radio"/> Not Detected <input type="radio"/> Sample Rejected <input type="radio"/> Results pending </div>	Enter the Viral load copies/ml <div> Viral load <input type="text"/> copies/ml </div>
	<p>Viral load Not detected or Sample Rejected</p> <div> Viral load results <ul style="list-style-type: none"> <input type="radio"/> Target Detected <input type="radio"/> Not Detected <input checked="" type="radio"/> Sample Rejected <input type="radio"/> Results Pending </div>	Proceed to Step 10
	<p>Viral load Results Pending</p> <div> Viral load results <ul style="list-style-type: none"> <input type="radio"/> Target Detected <input type="radio"/> Not Detected <input type="radio"/> Sample Rejected <input checked="" type="radio"/> Results Pending </div>	Proceed to Step 10
	<p>Viral load test done is "NO"</p> <div> Viral Load test done? <ul style="list-style-type: none"> <input type="radio"/> Yes <input checked="" type="radio"/> No <input type="radio"/> Unknown </div>	Proceed to Step 10

	IF	ACTION
9.	Client Refused ART	<p>Enter Reason for refusing ART Initiation in the text field then proceed to Step 10</p> <div> <p>ART initiation</p> <p> <input type="radio"/> Started ART during this visit <input checked="" type="radio"/> Refused ART <input type="radio"/> Not started due to stockout <input type="radio"/> Unknown </p> <p>Reason for refusing ART initiation</p> <input type="text"/> </div>
9c.	HIV status is Known Postive and ART status is previously recorded	<p>Indicate if viral load test was done and Viral Load test date and Viral load results then proceed to Step 10</p> <div> <p>Has the patient had a recent viral load test?</p> <p> <input checked="" type="radio"/> Yes <input type="radio"/> No <input type="radio"/> Unknown </p> <p>Viral load results</p> <p> <input checked="" type="radio"/> Target Detected <input type="radio"/> Not Detected <input type="radio"/> Sample Rejected <input type="radio"/> Results pending </p> <p>Viral load</p> <input type="text"/> copies/ml </div>
9d.	HIV status is Negative OR Unknown	<p>STOP!!!!!! </p> <p>Do NOT Record a <i>PNC Visit</i> for Clients with HIV Negative Status or clients with Unknown HIV Status</p>
10.	Enter the details of Breastfeeding Status	<p>BREASTFEEDING</p> <div> <p>Breastfeeding Status</p> <p> <input type="radio"/> Exclusive Breastfeeding <input type="radio"/> Mixed Feeding <input type="radio"/> Complementary Feeding <input type="radio"/> Unknown </p> <p>*</p> </div>
11.	Under Follow-up Section, enter Next Visit Date and Facility of next appointment	<p>FOLLOWUP</p> <div> <p>Next Visit Date</p> <input type="text" value="06/20/2017"/> <p>Facility of next appointment</p> <p> <input checked="" type="radio"/> This facility <input type="radio"/> In Transit <input type="radio"/> Transfer <input type="radio"/> Unknown </p> </div>
12.	If Client is transferring to another Clinic select Transfer and Select the facility of transfer for next appointment.	<p>Facility of next appointment</p> <p> <input type="radio"/> This facility <input type="radio"/> In Transit <input checked="" type="radio"/> Transfer <input type="radio"/> Unknown </p> <p>Transfer to</p> <input type="text" value="Anker Clinic"/>
13.	This task is complete when, after clicking on Enter Form .	<p>Enter Form</p>

STEP	ACTION
14.	<p>The client summary page appears and displays the recorded Mother PNC visit under Recent visits. The example shown on the right shows two visits for Labor Delivery on 7th May 2017</p>  <p>The screenshot displays the PMTCT Tracker interface for a client named 'labor Delivery'. The header shows the Ministry of Health and Social Services logo and the PMTCT Tracker title. The client's details include: Given: labor, Middle: Delivery, Family Name: Delivery, Gender: Female, Birthdate: ~01.Jan.1983. The 'Recent Visits' section shows a visit on 07.May.2017 with a 'Mother PNC' status. The 'General Actions' sidebar lists: Antenatal Form, Labour and Delivery Form, and Mother - Postnatal Form.</p>
	<p>Note: Clients with no previous PNC visit recorded will only have one PNC follow-up visit records reflected after first entry.</p>
